OBJECTIVE

Computer Science graduate and Software Developer Intern building full-stack web applications with Python, Django, Next.js, and React, with additional experience in Generative AI, prompt engineering, and machine learning. Seeking an entry-level Software Engineer role (backend, full-stack, or AI-adjacent) in Lahore, on-site or hybrid.

EDUCATION | UNIVERSITY OF CENTRAL PUNJAB, LAHORE

- B.S. in Computer Science (Oct 2021 – Jul 2025) – CGPA: 3.02

Bitsclan IT Solutions | Software Developer Intern

August 2026 – Present | Lahore | Python, Django, Next.js, React

- Doing full-stack product work, building and updating backend APIs in Python (Django / Django REST Framework).
- Implementing UI pages and components in Next.js and React.
- Connecting the frontend to REST APIs, handling data flow, and shipping UI updates.

Techlaxis | Django Developer Intern

May 2026 – July 2026 | Lahore | Python, Django, REST API

- Built and maintained Django web apps across models, views, and REST APIs.
- Implemented DocuSign embedded signing on a client's owner-facing site, so users could sign documents in-app.
- Worked on backend logic, database models, and third-party API integrations; shipped features on live Django projects.

Motive | Data Annotator

November 2025 – May 2026 | Lahore

- Annotated and labeled image and video datasets for machine learning models using bounding boxes, segmentation, and classification.
- Reviewed and validated annotated data, corrected labeling errors, and kept quality and consistency high for model training.

NurtureAI – Child Development Support

Final Year Project | Python, Django, React, REST API

- Built a full-stack web platform to help parents support their child's mental, educational, and physical growth through personalized, data-driven insights.
- Designed the React frontend and Django backend, connected through a RESTful API.
- Integrated a custom machine learning model that analyzes user-provided data to flag early signs of anxiety disorders.

PROJECTS

- ***Route and Fuel Optimization API:*** A REST API built with Django REST Framework.
- ***Savora – Recipe & Category Manager:*** Custom forms and one-to-one / one-to-many database relations, with every recipe organized under a category.
- ***Quillary – Blogging Platform:*** User authentication, pagination, and search.

CERTIFICATIONS

- Certificate of Completion: AI Fluency Framework
- Certificate of Completion: Claude 101

TECHNICAL SKILLS:

- **Languages & Frameworks:** Python, C++, Django, Django REST Framework, FastAPI, Next.js, React, HTML, CSS
- **Databases:** PostgreSQL, MySQL
- **AI:** Generative AI, LLMs, Conversational AI, Prompt Engineering, Machine Learning, Data Annotation
- **Spoken Languages:** English (Full Professional), Urdu (Native)
